

## FABRICO LASER CUTTING

### Laser Cutting Overview

- Computerized laser system
- Excellent beam quality ensures clean cuts
- Tight nesting
- Greater variety of materials and widths
- Brushless servo motors
- Etching and scoring capabilities

### Laser Cutting Specifications

- Materials: Laminates, Tapes, Films, Papers, Foams, Rubber, Coated Fabrics and Mats, Rigid Materials
- Capabilities
  - Minimum Slot Size: 0.040"
  - Minimum Diameter Size: 0.010"
  - Minimum Material Thickness: 0.001"
  - Maximum Material Size: 17" x 28"
  - Cutting Speed: 140"/second
