

FABRICO PROTOTYPING CAPABILITIES (6/16/09)

Prototyping Overview

- Maximum Material Width: 48"
- Tolerances: +/- .015

Cut-to-Length Specifications

- Ideal Usage: prototyping services, which include cutting, plotting, and creasing
- Materials: films, foils, laminates, rubber, graphite, and papers
- Capabilities
 - Minimum Part Size: .100" x .100"
 - Maximum Part Size: 48" x 15'
 - Maximum Material 1.18"
 - Width: 48"
 - Material Thickness: 1"
 - Material Lengths: Up to 15'
 - Maximum Machine Speed: 39 in/sec
 - Tool Size: N/A
 - Feed System: Conveyor Belt
- Tonnage: N/A
